COMPANY SNAPSHOT

Onyx Creative, Inc. – where innovation meets inspiration in the realms of architecture, engineering, interior design, and brand experiences. As a nationally recognized firm, we redefine spaces, crafting not just structures but immersive environments that leave a lasting impact. We are not just about constructing physical spaces; we are about building experiences that transcend the ordinary. Our commitment to excellence and creativity elevates every project into a unique and captivating journey. We believe in the power of design to shape human experiences and create environments that leave a lasting impression.

Specializing in a diverse range of projects, including retail stores, shopping centers, salons/spas, restaurants, industrial/warehouse spaces, corporate and medical offices, religious facilities, and residential developments. Each project is a canvas for us to create a distinctive and engaging identity, reflecting the unique vision of our clients.

Some of the things you can expect working at Onyx Creative

- Thriving team environment that exudes energy, creativity, and a passion for innovation.
- A dynamic work culture that fosters collaboration and celebrates individual contributions.
- Unparalleled professional career growth opportunities.
- A company with a rich history of proven success – a success that continues to drive our team forward.
- Contribute to a winning culture where your efforts directly impact our collective achievements.

POSITION SUMMARY

Act as the technical expert in one of the disciplines required by the organization (Mechanical, Electrical or Structural). Assist in the planning, organization, and control of engineering activities of a project within a professional discipline to best accomplish the successful completion of all projects assigned. Operating within the guidelines established by the Director of Engineering or Discipline Engineering Manager and within the policies and procedures established by the firm. Responsible for coordinating all aspects of projects assigned to them by Discipline Managers or Senior Engineers.

ESSENTIAL FUNCTIONS – Key Responsibilities

- Responsible for the engineering design (in their area of technical expertise) of projects assigned by the Project Manager.
- Review project fee contract and scope of work.
- Participate in project kick-off meeting with all consultants to discuss schedule, scope and determine required information.
- Delegate / assign work to Student or Co-op Engineering Interns, provide engineering training to and review / check their completed work.
- Complete projects within assigned budget hours and schedule.
- Assist the Project Manager by reviewing the project status, budget hours and schedule. Identify any issues related to expended time vs. budgeted hours.
- Recognize when projects are approaching allocated / budgeted hours. Notify Project Manager and assist with issuing change of service forms to clients for approval prior to completion of services.
- Assist with construction management in reviewing shop drawings and submittals during project construction phase.
- Follow client/firm quality assurance procedures.
- Research applicable building codes, standards, and various industry products.
- Perform other designated tasks as assigned.

SUPERVISORY RESPONSIBILITY

- Engineering Designers

QUALIFICATIONS and SKILLS

- Bachelor's degree in engineering (Mechanical, Electrical or Structural) through an ABET accredited university.
- Four to six years of experience in design in their area of expertise.
- Proficient use of a variety of software including, but not limited to, Autodesk AutoCAD and Revit.

Preferred Qualifications

- Master's degree in engineering (Mechanical, Electrical or Structural) through an ABET accredited university.
- Professional Engineer (P.E.) or Structural Engineer (S.E.) licensure.
- Maintain engineering license in at least one state.

BENEFITS

This role offers competitive compensation and is eligible for participation in Onyx Creative comprehensive benefits programs, including:

- Company-paid employee insurance - medical, dental, vision, life insurance and disability
- Retirement Plans – available options
- Paid Time Off and Paid Holidays
- Professional development benefits (Education Assistance)
- Paid industry and professional dues
- Company-provided laptops
- Variety of company-sponsored social events
- Volunteer community service opportunities.
- Rewards and Recognition
- Flexible workday

Onyx Creative, Inc. strives to provide competitive market-informed compensation based on a candidate's knowledge, skills, and experience. The actual pay offered may vary based upon, but not limited to education, skills, experience, proficiency, performance, and location. In addition to base salary, this role may be eligible for a discretionary bonus.

Join us and become part of a team that thrives on pushing boundaries, embracing creativity, and transforming visions into reality. We are not just architects and designers; we are storytellers shaping the narrative of spaces that inspire and captivate.
